## Positive Displacement Rotary Lobe Pumps

### Models

#### Holland RL 266

<b>Rated Capacities:</b>	1328 GPM (178 CFM) @ 500 RPM
<b>Displacement:</b>	266 US Gallons Per 100 Revolutions
<b>Working Pressure:</b>	to 70 psi
<b>Solids Passing:</b>	to 2.5" Compressible Solids
<b>Rated Speed:</b>	0-500 RPM*

#### Holland RL 531

<b>Rated Capacities:</b>	2656 GPM (355 CFM) @ 500 RPM
<b>Displacement:</b>	531 US Gallons Per 100 Revolutions
<b>Working Pressure:</b>	to 87 psi
<b>Solids Passing:</b>	to 2.5" Compressible Solids
<b>Rated Speed:</b>	0-500 RPM*

\*(Consult factory for recommended operating speeds)

### Applications

Confidently move your fluids with the new RL series rotary lobe positive displacement pumps from Holland Pump.

The Holland Pump RL series of rotary lobe pumps were developed to meet our needs in the wellpoint dewatering industry. We drew from our years of practical work experience with deploying and maintaining one of the world's largest fleets of rotary pumps.

The RL series has been developed to provide simple design, robust service and long life. In addition to excellent build quality, the RL series offers the value added convenience of easy wear part replacement at an affordable price.

Wear parts are available online at:
